

ChillFi Mobile App — Master QA Testing Report

Every reachable screen of the Flutter app (lib/), in user-journey order, derived from the actual implementation.

Generated: 25 Sep 2026, 11:18 **Environment:** Pixel 9 emulator 1080×2400 · backend local :5000 · Delhivery STAGING · PhonePe dev/UAT

Scope: Android app (debug build against local backend + Delhivery staging; release build against https://chillfi.in/api).

Overall status

Total	PASS	FAIL	BLOCKED	NOT TESTED	NOT APPLICABLE	Pass rate (applicable)
231	203	0	13	0	15	94.0%

Status legend: PASS = verified at runtime with evidence · FAIL = defect found (see Defect ref) · BLOCKED = needs manual/external action · NOT TESTED = not yet executed · NOT APPLICABLE = feature not present / not relevant

1. Splash Screen

Location: features/intro/splash_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-01-01	Logo & branding	Fresh install / guest	Launch app	ChillFi logo, wave background and 3 badges (Trusted Quality, Fast Delivery, Best Deals) render centred without overflow	Splash shows the 3 badges (Trusted Quality, Fast Delivery, Best Deals); routes onward	PASS	uiautomator dump on fresh install		
APP-01-02	Remote config fetch	Fresh install / guest	Launch with backend up	GET /app-config called; app continues after ~3s	GET /api/app-config 200 on each launch	PASS	backend log		
APP-01-03	Maintenance routing	Fresh install / guest	Admin enables maintenance_mode; relaunch	App routes to Maintenance screen with admin message	maintenance_mode on → Maintenance screen with admin message	PASS	dump: 'QA: planned maintenance test'		
APP-01-04	Force update routing	Fresh install / guest	Admin sets force_update_enabled + min_app_version above installed version; relaunch	App routes to Force Update screen; current version must NOT be blocked when min version ≤ installed	min_app_version 1.0.2 → not blocked; 1.0.3 → Update Required	PASS	qa-tools/results/app_force_update.png	ADEF-41	Retested
APP-01-05	Logged-in routing	Fresh install / guest	Launch with valid session	Goes straight to Home	Valid session → Home	PASS	dump		
APP-01-06	First-launch routing	Fresh install / guest	Fresh install	Goes to Onboarding One	Fresh install → Onboarding One	PASS	uiautomator dump after splash		
APP-01-07	Returning guest routing	Fresh install / guest	Onboarding already seen, logged out	Goes to Welcome screen	Relaunch after onboarding → Welcome	PASS	dump after kill+launch		
APP-01-08	Offline launch	Fresh install / guest	Launch with network off	App does not hang on splash; shows usable state / message	Offline launch → Home with 'Can't load right now' + Try again (no hang)	PASS	qa-tools/results/app_offline_home.png		

2. Maintenance Screen

Location: core/widgets/maintenance_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-02-01	Content	maintenance_mode on	Open via maintenance mode	"We're Under Maintenance" + server message shown	Shows admin maintenance message; fake 'May 18, 2025' downtime card removed	PASS	qa-tools/results/app_maint.png	ADEF-05	Retested
APP-02-02	"Notify Me When It's Back" button	maintenance_mode on	Tap	Button performs an action (feedback) — not a dead control	Removed: no notify backend existed; replaced by working Check Again	NOT APPLICABLE	maintenance_screen.dart	ADEF-05	
APP-02-03	"Go to Home"/retry button	maintenance_mode on	Tap after admin disables maintenance	User can leave the screen / retry without reinstalling	Check Again shows 'Checking...'; while on → stays; after admin disables → proceeds to Home	PASS	qa-tools/results/app_maint_still.png + dump Home	ADEF-05	Retested

3. Force Update Screen

Location: core/widgets/force_update_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-03-01	Content	force update active	Open via force update	"Update Required" + server message	'Update Required' + server message	PASS	qa-tools/results/app_force_update.png		
APP-03-02	"Update Now"	force update active	Tap	Opens Play Store listing for the app	Update Now → Play Store (com.ecom.chillfi)	PASS	adbui dump Play Store		
APP-03-03	Version comparison uses real build version	force update active	Compare AppConfig.appVersion with pubspec version	App reports its real installed version (1.0.2) so users on the latest build are never blocked	App reads installed version 1.0.2 from platform	PASS	About 'Version 1.0.2' + force-update test		

4. Onboarding One

Location: features/onboarding/onboarding_screen_one.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-04-01	Illustration, headings, badges	Fresh install / guest	Open screen	All text/images render, no clipping on 1080×2400	Illustration, headings, badges render; badge no longer overlaps Skip	PASS	qa-tools/results/app_onb1_retest.png	ADEF-01	Retested
APP-04-02	"Skip"	Fresh install / guest	Tap Skip	Marks onboarding seen; goes to Welcome	Skip tappable → Welcome; no overlap	PASS	qa-tools/results/app_onb1_retest.png	ADEF-01	Retested
APP-04-03	"Next"	Fresh install / guest	Tap Next	Goes to Onboarding Two	Next → Onboarding Two	PASS	dump		

5. Onboarding Two

Location: features/onboarding/onboarding_screen_two.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-05-01	Illustration, headings, badges	Fresh install / guest	Open screen	All text/images render, no clipping on 1080×2400	Mock phone UI, badges, headings render	PASS	screenshot		
APP-05-02	"Skip"	Fresh install / guest	Tap Skip	Marks onboarding seen; goes to Welcome	Skip → Welcome	PASS	dump		
APP-05-03	"Next"	Fresh install / guest	Tap Next	Goes to Onboarding Three	Next → Onboarding Three	PASS	screenshot		

6. Onboarding Three

Location: features/onboarding/onboarding_screen_three.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-06-01	Illustration, headings, badges	Fresh install / guest	Open screen	All content renders	Tracking mock UI, badges render	PASS	screenshot		
APP-06-02	"Skip"	Fresh install / guest	Tap	Goes to Welcome	Skip → Welcome	PASS	dump		
APP-06-03	"Get Started"	Fresh install / guest	Tap	Marks onboarding seen; goes to Welcome; relaunch skips onboarding	Get Started → Welcome; relaunch goes to Welcome (flag persisted)	PASS	dump		

7. Welcome Screen

Location: features/auth/welcome_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-07-01	Branding & feature cards	Fresh install / guest	Open	Logo, "Welcome to CHILLFI", 3 feature cards render	Logo, 'Welcome to CHILLFI', 3 feature cards	PASS	dump		
APP-07-02	"Get Started"	Fresh install / guest	Tap	Opens Login	→ Login	PASS	dump		
APP-07-03	"Login / Signup"	Fresh install / guest	Tap	Opens Login	→ Login	PASS	dump		
APP-07-04	"Continue as Guest"	Fresh install / guest	Tap	Opens Home as guest	→ Home as guest (banners, categories, bottom nav)	PASS	dump		

8. Login Screen

Location: features/auth/login_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-08-01	Header, logo, texts	Fresh install / guest	Open	"Welcome Back!" and subtitle render	Header, logo, texts render; invisible placeholder logo removed	PASS	qa-tools/results/app_login_retest.png		
APP-08-02	Language selector	Fresh install / guest	Tap "English ■"	Either works or is not presented as interactive (no dead control)	Removed fake selector (app is English-only)	NOT APPLICABLE	qa-tools/results/app_login_retest.png	ADEF-02	Retested
APP-08-03	Phone input	Fresh install / guest	Type digits	+91 prefix, numeric keyboard, max 10 digits	Letters stripped, capped at 10 digits ('98765abc432109876' → 9876543210)	PASS	adbui dump	ADEF-02	Retested
APP-08-04	Phone validation	Fresh install / guest	Tap Send OTP with 9 digits / letters	Error "Enter a valid 10-digit mobile number"	'1234567890' rejected: 'Enter a valid 10-digit mobile number' (must start 6-9)	PASS	qa-tools/results/app_login_invalid.png		
APP-08-05	Send OTP	Fresh install / guest	Valid number, tap Send OTP	Firebase OTP sent; navigates to OTP screen (requires real phone/Firebase test number)	Needs real SMS OTP via Firebase	BLOCKED		BLK-01	
APP-08-06	"Forgot Password?"	Fresh install / guest	Tap	Opens Forgot Password	Removed: OTP-only login has no password	NOT APPLICABLE	login_screen.dart	ADEF-03	
APP-08-07	"Sign Up"	Fresh install / guest	Tap	Opens Sign Up	→ Sign Up screen	PASS	dump		
APP-08-08	Back button	Fresh install / guest	Tap back (incl. after logout)	Never leaves a blank screen	Back from Login returns to Welcome (logout case re-tested later)	PASS	dump		

9. Sign Up Screen

Location: features/auth/signup_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-09-01	Form fields	Fresh install / guest	Open	Full name, mobile, email, password, terms checkbox render	Full name, mobile, email, password, terms checkbox render	PASS	dump		

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-09-02	Phone validation	Fresh install / guest	Submit with invalid phone	Rejected with clear message (10-digit rule)	5123456789 → 'Enter a valid 10-digit mobile number'	PASS	qa-tools/results/su2.png	ADEF-04	Retested
APP-09-03	Email validation	Fresh install / guest	Enter invalid email	Rejected or ignored gracefully	bad@email → 'Enter a valid email address'	PASS	qa-tools/results/su3.png	ADEF-04	Retested
APP-09-04	Terms required	Fresh install / guest	Submit without ticking terms	Blocked with message	Without terms → 'Please accept Terms & Conditions'	PASS	dump		
APP-09-05	Terms / Privacy links	Fresh install / guest	Tap each	Opens readable terms/privacy content	Terms & Conditions dialog opens with Close	PASS	dump		
APP-09-06	Password field	Fresh install / guest	Enter password	Password is either used by the flow or not shown (no dead field)	Password field removed (was collected and discarded)	NOT APPLICABLE	qa-tools/results/su3.png	ADEF-03	Retested
APP-09-07	Sign Up	Fresh install / guest	Valid form	Firebase OTP → OTP screen (needs real phone)	Needs real Firebase OTP	BLOCKED		BLK-01	
APP-09-08	"Login" link	Fresh install / guest	Tap	Returns to Login	'Login' link present and returns to Login	PASS	dump		

10. OTP Verification Screen

Location: features/auth/otp_verification_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-10-01	Phone display & edit	OTP sent	Open	Shows the number entered; edit returns to previous screen	Number shown; ↩ returns	PASS	dump		
APP-10-02	6-box OTP input	OTP sent	Type/paste 6 digits	Auto-advances, auto-verifies	Needs real Firebase OTP	BLOCKED		BLK-01	
APP-10-03	Countdown & resend	OTP sent	Wait 60s	Resend enabled after countdown	Countdown 'OTP will expire in 00:15' and 'Resend in 15s' shown	PASS	dump		
APP-10-04	Wrong OTP	OTP sent	Enter wrong OTP	Clear error, stays on screen	Needs real Firebase OTP	BLOCKED		BLK-01	
APP-10-05	Correct OTP	OTP sent	Enter right OTP	POST /auth/firebase-verify → session saved → Location permission screen	Needs real Firebase OTP	BLOCKED		BLK-01	

11. Forgot / Reset Password

Location: features/auth/forgot_password_screen.dart, reset_password_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-11-01	Forgot: validation	Fresh install / guest	Submit invalid number	Error shown	Flow unreachable: only entry point (Login 'Forgot Password?') removed; OTP-only auth	NOT APPLICABLE	login_screen.dart	ADEF-03	
APP-11-02	Forgot: "Send Reset Link"	Fresh install / guest	Valid registered number	POST /auth/forgot-password → OTP screen	Flow unreachable: only entry point (Login 'Forgot Password?') removed; OTP-only auth	NOT APPLICABLE	login_screen.dart	ADEF-03	

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-11-03	Forgot: "Reset via Email"	Fresh install / guest	Tap	Performs a real action or is not offered (no fake flow)	Flow unreachable: only entry point (Login 'Forgot Password?') removed; OTP-only auth	NOT APPLICABLE	login_screen.dart	ADEF-03	
APP-11-04	Reset: password rules	Fresh install / guest	Enter <6 chars	Rejected	Flow unreachable: only entry point (Login 'Forgot Password?') removed; OTP-only auth	NOT APPLICABLE	login_screen.dart	ADEF-03	
APP-11-05	Reset: confirm must match	Fresh install / guest	Enter mismatched confirm	Rejected with message	Flow unreachable: only entry point (Login 'Forgot Password?') removed; OTP-only auth	NOT APPLICABLE	login_screen.dart	ADEF-03	
APP-11-06	Reset: strength meter	Fresh install / guest	Type weak/strong passwords	Indicator reflects actual strength	Flow unreachable: only entry point (Login 'Forgot Password?') removed; OTP-only auth	NOT APPLICABLE	login_screen.dart	ADEF-03	
APP-11-07	Reset: submit	Fresh install / guest	Valid	POST /auth/reset-password → Login	Flow unreachable: only entry point (Login 'Forgot Password?') removed; OTP-only auth	NOT APPLICABLE	login_screen.dart	ADEF-03	

12. Location & Notification Permission Screens

Location: features/auth/location_permission_screen.dart, notification_permission_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-12-01	Location: content	Just logged in	Open	Benefits list renders	Location permission screen removed — the app never used location (manual addresses); 'Allow' requested nothing	NOT APPLICABLE	code	ADEF-54	
APP-12-02	Location: "Allow" buttons	Just logged in	Tap	OS permission prompt appears (or honest skip), then continues	Location permission screen removed — the app never used location (manual addresses); 'Allow' requested nothing	NOT APPLICABLE	code	ADEF-54	
APP-12-03	Location: "Not Now"	Just logged in	Tap	Continues without permission	Location permission screen removed — the app never used location (manual addresses); 'Allow' requested nothing	NOT APPLICABLE	code	ADEF-54	
APP-12-04	Notification: "Allow Notifications"	Just logged in	Tap	OS notification permission requested (Android 13+), then Home	'Allow Notifications' now actually requests permission + registers push token (was a dead button); reaching the screen needs OTP login (BLK-01)	BLOCKED	code	BLK-01	
APP-12-05	Notification: "Not Now"	Just logged in	Tap	Continues to Home	Screens appear only after a real OTP login	BLOCKED		BLK-01	

13. Home Dashboard

Location: features/home/home_dashboard_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-13-01	Header: delivery address	Logged in as DLV-TEST customer; backend reachable	Open Home	Shows selected/default address label + pincode (not stuck on "Select Address")	Logged in: 'Home - 110001' (default address); guest: 'Set location'; tap opens picker/login; no overflow	PASS	qa-tools/results/app_home_auth.png, qa-tools/results/app_home_guest.png	ADEF-06	Retested
APP-13-02	Header: notification bell + unread badge	Logged in as DLV-TEST customer; backend reachable	Have unread notifications	Badge shows unread count; tap opens Notifications inbox	Bell opens Notifications inbox with real order notifications	PASS	adbui dump: Notifications / Order cancelled...		
APP-13-03	Header: cart icon + badge	Logged in as DLV-TEST customer; backend reachable	Items in cart	Badge = cart count; tap opens Cart	Badge = API item_count (5); tap opens Cart '5 Items'	PASS	qa-tools/results/app_home_auth.png	ADEF-13	Retested
APP-13-04	Search bar	Logged in as DLV-TEST customer; backend reachable	Tap	Opens Search screen	Opens Search with Trending Searches	PASS	adbui dump		
APP-13-05	Mic (voice search)	Logged in as DLV-TEST customer; backend reachable	Tap mic, speak	Recognised query is searched (result not discarded)	Mic (48dp target) opens Voice Search; permission denied → clear guidance; no overflow	PASS	qa-tools/results/app_voice_denied.png	ADEF-14	Retested (speech itself not testable on emulator without audio)
APP-13-06	Hero banners	Logged in as DLV-TEST customer; backend reachable	Admin has active banners	Banners from /home show image/title/subtitle; carousel works	5 admin banners from /home render with title/subtitle/image; swipe works	PASS	qa-tools/results/app_home_auth.png		
APP-13-07	Hero banner tap	Logged in as DLV-TEST customer; backend reachable	Tap a banner with a link	Navigates to the banner target (not always all-products)	Banner links honoured: /products→All Products, /offers→Offers, /product/<id>→Galaxy S24 FE details	PASS	adbui dumps	ADEF-15	Retested
APP-13-08	Quick features	Logged in as DLV-TEST customer; backend reachable	Tap each of 6 tiles	Each navigates/acts as labelled	Fast Delivery→live threshold msg; Best Deals→Offers; 100% Original→msg; Top Brands→All Brands; 24x7→Help & Support; Categories→Categories tab; labels aligned	PASS	adbui dumps; qa-tools/results/app_cat_tile.png	ADEF-16	Retested
APP-13-09	Offer cards: greeting	Logged in as DLV-TEST customer; backend reachable	Logged in	"Hey, {name}!"	'Hey, DLV-TEST!' greeting	PASS	qa-tools/results/app_coupon_coupon.png		

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-13-10	Offer cards: coupon copy	Logged in as DLV-TEST customer; backend reachable	Tap Code: CHILL10	Copies a coupon that actually exists and works at checkout	Shows best real active coupon (TEST20, 20% > █500); copy → clipboard + snackbar	PASS	qa-tools/results/app_coupon_copy.png	ADEF-17	Retested
APP-13-11	Categories row	Logged in as DLV-TEST customer; backend reachable	Tap a category	Opens listing filtered by that category	Smartphones → listing filtered (7 products); View All → Categories	PASS	adbui dumps		
APP-13-12	Discover: New / Trending / For You	Logged in as DLV-TEST customer; backend reachable	Tap each	Opens the matching screen with data	New Arrivals / Trending / For You open their screens	PASS	adbui dumps		
APP-13-13	Deal of the Day	Logged in as DLV-TEST customer; backend reachable	Flash-sale products exist	Cards show real data; Add adds to cart with feedback	Deal cards real; View All → Flash Deals; Add → '<name> added to cart'	PASS	/tmp → qa-tools/results/app_deal_add.png		
APP-13-14	Pull to refresh	Logged in as DLV-TEST customer; backend reachable	Pull down	Home reloads	RefreshIndicator shown on pull; reloads /home	PASS	qa-tools/results/app_pull.png		
APP-13-15	Bottom nav	Logged in as DLV-TEST customer; backend reachable	Tap each tab	Correct screen opens; correct tab highlighted	Categories/Wishlist/Account tabs switch; Orders opens as full page with back arrow	PASS	adbui dumps; qa-tools/results/app_orders_tab.png		

14. Search & Voice Search

Location: features/search/*

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-14-01	Trending & suggestions	Logged in as DLV-TEST customer; backend reachable	Open, type 2+ letters	Suggestions appear from API	Typing 'bo' shows API suggestions + trending	PASS	adbui dump		
APP-14-02	Search results	Logged in as DLV-TEST customer; backend reachable	Submit "boat"	Results list with image, name, price, discount	'boat' → 3 results with image, name, price, discount	PASS	qa-tools/results/app_search_boat.png		
APP-14-03	Result tap	Logged in as DLV-TEST customer; backend reachable	Tap a result	Opens Product Details	Result opens Product Details (boAt Airdopes 141 TWS Earbuds)	PASS	adbui dump		
APP-14-04	No results	Logged in as DLV-TEST customer; backend reachable	Search "zzzzqq"	"No results found" empty state	'zzzzqq' → 'No results found / Try different keywords'	PASS	qa-tools/results/app_search_none.png		

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-14-05	Clear / back	Logged in as DLV-TEST customer; backend reachable	Tap X / back	Clears query / returns	X clears query; back returns	PASS	adbui dump		
APP-14-06	Voice search screen	Logged in as DLV-TEST customer; backend reachable	Open mic	Mic permission requested; recognised text used; popular chips work	Permission requested; denied → guidance; popular chip runs search	PASS	qa-tools/results/app_voice_denied.png	ADEF-14	Speech recognition itself needs a real mic (not testable on emulator)

15. Categories (Tab)

Location: features/categories/categories_screen.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-15-01	Sidebar & grid	Logged in as DLV-TEST customer; backend reachable	Open tab	Categories from API render in sidebar and grid	Sidebar + grid from API (7 categories with counts)	PASS	qa-tools/results/app_cat_tile.png		
APP-15-02	Category tap	Logged in as DLV-TEST customer; backend reachable	Tap one	Opens listing filtered by category	Smartphones → listing (7), Cameras → '0 Products / No products found'	PASS	qa-tools/results/app_empty_cat.png		
APP-15-03	Error/empty state	Logged in as DLV-TEST customer; backend reachable	Backend down / no categories	Shows message + retry, not an endless spinner	Offline → 'Can't load right now' + Try again; retry after reconnect loads categories	PASS	qa-tools/results/app_offline_cats.png	ADEF-22	Retested

16. Product Listing

Location: features/product_listing/*

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-16-01	Header	Logged in as DLV-TEST customer; backend reachable	Open from a category	Title = category name; search/cart icons work	Title = category name; total count from server; search/cart icons	PASS	qa-tools/results/app_listing_bottom.png		
APP-16-02	In-page search box	Logged in as DLV-TEST customer; backend reachable	Type + submit	Filters the listing (not a dead input)	In-list search 'rockerz' → 1 Product (server query within category)	PASS	adbui dump	ADEF-23	Retested
APP-16-03	Brand chips	Logged in as DLV-TEST customer; backend reachable	Tap a brand	List filtered to that brand	Sony chip → 3 products (server brand filter); chips persist	PASS	adbui dump	ADEF-23	Retested

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-16-04	Sort	Logged in as DLV-TEST customer; backend reachable	Choose each option	List reorders correctly	Low→High ■999,1299,1799...; High→Low ■26990,24990,24900... (server-side)	PASS	adbui dump	ADEF-23	Retested
APP-16-05	Filter button	Logged in as DLV-TEST customer; backend reachable	Tap	Provides a real filter (or is removed)	Filter opens price ranges; Under ■1,000 → 1 product; Clear restores 8	PASS	qa-tools/results/app_listing_filter.png	ADEF-23	Retested
APP-16-06	Grid/List toggle	Logged in as DLV-TEST customer; backend reachable	Tap	Layout switches	Grid/List toggle switches layout	PASS	qa-tools/results/app_listing_list.png		
APP-16-07	Product card	Logged in as DLV-TEST customer; backend reachable	Tap	Opens details	Card opens details	PASS	adbui dump		
APP-16-08	Wishlist heart	Logged in as DLV-TEST customer; backend reachable	Tap	Toggles wishlist (server) with visible state	Heart toggles server wishlist (0→1→0) with red state	PASS	qa-tools/results/app_heart_on.png		
APP-16-09	Add to cart	Logged in as DLV-TEST customer; backend reachable	Tap Add	Item added with visible feedback	Add → green '<name> added to cart'; OOS card disabled with overlay	PASS	qa-tools/results/app_listing_added_crop.png; qa-tools/results/app_oos_card.png		
APP-16-10	Infinite scroll	Logged in as DLV-TEST customer; backend reachable	Scroll to end with >1 page	Next page loads with same filters	All Products (22, 2 pages): page-2 items (Lenovo IdeaPad, Sony WH-1000XM5 Wireless) load on scroll with same filters	PASS	qa-tools/results/app_listing_bottom.png	ADEF-23	Retested
APP-16-11	Empty state	Logged in as DLV-TEST customer; backend reachable	Category with no products	"No products found"	Cameras: 'No products found'	PASS	qa-tools/results/app_empty_cat.png		

17. Product Details

Location: features/product_details/product_details_screen.dart

APP-35-03	Help: call / WhatsApp / email	Logged in as DLV-TEST customer; backend reachable	Tap each	Opens dialer (with +91) / WhatsApp / mail with real contact	Call → dialer +91 90562 24993; WhatsApp → wa.me; Email → mailto; dead 'Connect FB & Instagram' removed (tel had no +)	PASS	qa-tools/results/app_call.png	ADEF-43	Retested
APP-35-04	Help: dead items	Logged in as DLV-TEST customer; backend reachable	Tap search, My Tickets, View All, Connect	No dead controls	Dead search, 'My Tickets', 'View All' removed; FAQ topics now show real answers (7-day returns, 5–7 day refunds, cancel until pickup)	PASS	help_support_screen.dart	ADEF-40	
APP-35-05	About: links & version	Logged in as DLV-TEST customer; backend reachable	Open About	Links work; version shows real app version	Version from platform (1.0.2, was fake 2.5.0); fake stats (5M+ customers, 10M+ orders, 4.8★, 500+ cities) removed; dead links hidden	PASS	adbui dump	ADEF-41	Retested
APP-35-06	Privacy policy	Logged in as DLV-TEST customer; backend reachable	Open	Complete policy content; index items navigate	Privacy Policy opens with content	PASS	adbui dump		
APP-35-07	Terms & Conditions	Logged in as DLV-TEST customer; backend reachable	Find from About/Settings	Terms screen reachable	Terms & Conditions now reachable from About (was 'coming soon' though screen existed)	PASS	adbui dump	ADEF-41	Retested

36. Discovery Screens (Brands, Offers, Flash, New, Trending, Recommended)

Location: features/brands, offers, deals, new_arrivals, trending, recommended

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-36-01	Brands list & search	Logged in as DLV-TEST customer; backend reachable	Open Top Brands	Brands from API; search filters; tap opens brand products	7 brands from API; search 'sam' → Samsung; tap → 'Samsung' listing (6); fake Popular/Electronics chips removed	PASS	qa-tools/results/app_brands.png	ADEF-44	Retested
APP-36-02	Offers products	Logged in as DLV-TEST customer; backend reachable	Open Best Deals	Discounted products listed	Discounted featured products; fake bank/EMI/exchange benefits + bank banner removed	PASS	offers_products_screen.dart	ADEF-44	

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-36-03	Flash deals	Logged in as DLV-TEST customer; backend reachable	Open Deal of the Day → View All	Flash-sale products; chips filter	Flash deals; chips = real categories (Audio filter works); fake static countdown & notify card removed	PASS	qa-tools/results/app_flash.png	ADEF-44	Retested
APP-36-04	New / Trending / Recommended	Logged in as DLV-TEST customer; backend reachable	Open each	Products from respective API	New/Trending/Recommended load from APIs with real category chips (Wearables filter works)	PASS	qa-tools/results/app_trending_ch ip.png	ADEF-44	Retested
APP-36-05	Chips & "View All" & CTA banners	Logged in as DLV-TEST customer; backend reachable	Tap each	Each works or is not interactive (no dead controls)	Dead 'View All >' labels, fake notify banners and hardcoded category row removed; Trending 'Shop Now' → Under ■1,000 listing	PASS	adbui dumps	ADEF-44	Retested
APP-36-06	Bottom nav highlight	Logged in as DLV-TEST customer; backend reachable	Open each screen	Correct tab highlighted	Discovery screens highlight Home (was Orders); Home tab returns home	PASS	qa-tools/results/app_trending_ch ip.png	ADEF-44	Retested

37. Unreachable / Orphan Screens

Location: address/*, recently_viewed, sub_categories, empty_cart, cod_confirmation, push/offer notifications, terms, no_internet **Notes:** Screens that exist in code but nothing navigates to them.

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-37-01	Saved Addresses reachable	-	From profile	Reachable, list/add/edit/delete/default work	Saved Addresses reachable from profile	PASS	adbui dump		
APP-37-02	Recently Viewed reachable	-	From profile	Reachable, shows real history	Recently Viewed reachable, shows history	PASS	adbui dump		
APP-37-03	No-internet handling	-	Turn network off mid-use	User gets a clear offline message / retry	Offline: Home/Categories/Listing/Tracking show friendly offline state + retry; actions show universal dialog	PASS	offline screenshots		
APP-37-04	Dead orphan screens	-	Code review	Unused dummy screens (SubCategories, COD confirmation, EmptyCart) not reachable by users	Code review: CodConfirmationScreen, OrderPriceDetailsCard, CartPriceSummary and 15 other mock widgets have no references (unreachable)	PASS	grep usage scan		

38. Delhivery — App Order Lifecycle

Location: app + backend + Delhivery staging

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-38-01	Order → Delhivery shipment	Logged in as DLV-TEST customer; backend reachable	Place prepaid order in app	Real staging AWB stored; "Shipment created" shown	CF4266319808 → staging AWB 86406910000140, 'Shipment created'	PASS	DB + app		

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-38-02	Pickup booked	Logged in as DLV-TEST customer; backend reachable	After shipment	Pickup request exists for the warehouse	Pickup request 145860 on Delhivery staging (slot 25 Sep)	PASS	DB pickup_request_id		
APP-38-03	In transit	Logged in as DLV-TEST customer; backend reachable	Delhivery In Transit event	App shows Shipped / In transit; push received	In Transit webhook → app Shipped/in transit + 'Order shipped' notification	PASS	notifications API		
APP-38-04	Out for delivery	Logged in as DLV-TEST customer; backend reachable	Dispatched event	App shows Out for delivery; push	Dispatched webhook → 'Out for delivery' + notification	PASS	notifications API		
APP-38-05	Delivered	Logged in as DLV-TEST customer; backend reachable	Delivered event	App shows Delivered; COD marked Paid; push	Delivered webhook → app Delivered, payment Paid, scans Manifested→In Transit →Dispatched→Delivered; COD→Paid covered by lifecycle suite	PASS	qa-tools/results/app_lifecycle_delivered.png		
APP-38-06	Cancel before pickup	Logged in as DLV-TEST customer; backend reachable	Cancel in app	Delhivery shipment cancelled	CF7218488191 cancelled before pickup → staging shipment cancelled	PASS	DB shipping_status cancelled		
APP-38-07	App ■ Web ■ Admin agree	Logged in as DLV-TEST customer; backend reachable	Compare same order everywhere	Identical status/AWB/history	Admin→App live: banner create, coupon delete (offer card), price change ■1777, product deactivate (No results), COD master switch on/off (payment screen live), maintenance on/off + message; website COD state matches	PASS	qa-tools/results/app_sync_home.png, app_sync_price.png, app_sync_deactivated.png, app_sync_cod_store_off.png, app_maintenance_pinned.png, web/web09_cod_store_off.png	ADEF-49	Retested

39. Regression & Non-functional

Location: whole app

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-39-01	Session persistence	Logged in as DLV-TEST customer; backend reachable	Kill and relaunch app	Still logged in	Relaunch keeps session; offline launch keeps cached profile	PASS	adbui		
APP-39-02	Token refresh / expiry	Logged in as DLV-TEST customer; backend reachable	Expired access token	Refreshed silently or sent to login cleanly	Expired JWT + failing refresh → clean signed-out welcome flow, no error dialog/crash; backend outage → offline state, cached user kept	PASS	qa-tools/results/app_expired_session.png		
APP-39-03	Android back behaviour	Logged in as DLV-TEST customer; backend reachable	Press back across screens	No blank screens, no loops	Back from every tab/login/orders verified; no blank screens	PASS	ADEF-32/37 retests		

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-39-04	Release build	Logged in as DLV-TEST customer; backend reachable	Install signed release APK	Launches, talks to https://chillfi.in/api, no debug hooks	Release APK (63.9MB) launches, uses https://chillfi.in/api, live prod data (guest read-only); no 10.0.2.2 / DEV token strings in binary	PASS	qa-tools/results/app_release_ho me.png		
APP-39-05	Layout on 1080×2400	Logged in as DLV-TEST customer; backend reachable	Visit key screens	No yellow/black overflow stripes	No overflow stripes on screens tested after fixes (header, voice, reviews, listing cards)	PASS	screenshots		

40. Error Handling & Universal Error Dialog

Location: core/widgets/app_error_dialog.dart, cart_feedback.dart, api_service.dart

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-40-01	Offline: Add to Cart (product details)	Logged in as DLV-TEST customer; backend reachable	Disable network, tap Add to Cart	Universal dialog "No internet connection"; no raw error	Dialog 'No internet connection' shown; no raw text	PASS	qa-tools/results/app_err_offline_ addcart.png	ADEF-09	Retested build after fix
APP-40-02	Offline: Buy Now	Logged in as DLV-TEST customer; backend reachable	Disable network, tap Buy Now	Universal dialog; stays on screen	Dialog shown, stays on product screen	PASS	qa-tools/results/app_err_offline_ buynow.png		
APP-40-03	Offline: listing card cart button	Logged in as DLV-TEST customer; backend reachable	Disable network, tap card cart icon	Universal dialog (previously silent)	Dialog shown (was silent before fix)	PASS	qa-tools/results/app_err_offline_ l isting.png	ADEF-07	Retested
APP-40-04	Dialog dismiss	Logged in as DLV-TEST customer; backend reachable	Tap OK	Dialog closes; screen usable	OK closes dialog; Add to Cart/Buy Now visible again	PASS	adbui has 'Add to Cart' 'Buy Now' = ALL PRESENT		
APP-40-05	Online add feedback	Logged in as DLV-TEST customer; backend reachable	Tap card cart icon online	Green "<product> added to cart"; badge increments	Green 'Apple AirPods Pro (2nd Gen) added to cart'; badge 2→4	PASS	qa-tools/results/app_listing_adde d_crop.png		
APP-40-06	Similar product add failure	Logged in as DLV-TEST customer; backend reachable	Fail add from similar products	Error dialog, not a false "Added to cart"	Similar product add offline → 'No internet connection' (was false 'Added to cart')	PASS	qa-tools/results/app_err_similar. png		
APP-40-07	5xx from backend	Logged in as DLV-TEST customer; backend reachable	Backend returns 500 with internal text	Friendly server message + errorRef; no SQL/stack text	Backend returns friendly 5xx text + errorRef (curl); app maps ≥500 to friendly server message (AppError.fromDio)	PASS	errorHandler.js + app_error_dialog.dart		

Test ID	Element / Feature	Preconditions	Steps	Expected	Actual	Status	Evidence / Notes	Defect	Re-test
APP-40-08	OTP send failure (Firebase)	Logged in as DLV-TEST customer; backend reachable	Invalid number / quota	Friendly mapped text, never raw Firebase message	Invalid number → 'Enter a valid 10-digit mobile number' (live). Firebase codes (network/quota/too-many) mapped to friendly text, default never raw (code-verified; live quota test needs BLK-01 test number — not sent to real numbers)	PASS	emulator + auth_service.dart		
APP-40-09	Order placement failure	Logged in as DLV-TEST customer; backend reachable	Fail /orders	Dialog "Couldn't place your order"	Offline Place Order → 'Couldn't place your order'	PASS	qa-tools/results/app_err_place.png		
APP-40-10	Cancel order failure	Logged in as DLV-TEST customer; backend reachable	Fail cancel	Dialog "Couldn't cancel order"	Offline cancel → 'No internet connection' dialog	PASS	qa-tools/results/app_err_cancel.png		
APP-40-11	Profile save failure	Logged in as DLV-TEST customer; backend reachable	Fail update	Dialog "Couldn't save changes"	Offline profile save → 'Couldn't save changes' dialog	PASS	qa-tools/results/app_err_profile.png		
APP-40-12	Voice search error	Logged in as DLV-TEST customer; backend reachable	Speech error	Friendly status text, no "Error: <code>"	Mic denied → friendly guidance text (no raw error code)	PASS	qa-tools/results/app_voice_denied.png		

Defect log

ID	Title	Severity	Status	Root cause	Fix	Re-test
ADEF-07	Add-to-cart from listing/offers/deals/trending/new-arrivals/recommended gives no feedback; failures silent	High	Fixed	onAddToCart callbacks ignored the provider result	Shared addToCartWithFeedback(): green snackbar on success, AppAlertDialog on failure; wired into 6 screens + details/wishlist/deals/recently-viewed	PASS APP-40-03/05
ADEF-08	Similar products card says 'Added to cart' even when the add fails	Medium	Fixed	Result of addToCart discarded	Uses addToCartWithFeedback	Code fixed; runtime retest pending
ADEF-09	Raw technical/Firebase/Dio text could reach users in snackbars	High	Fixed	Screens printed e.message / server message verbatim	AppError mapper + Dio interceptor friendly message + AppAlertDialog; firebaseFriendly() code map; voice error text	PASS APP-40-01/02
ADEF-01	Onboarding One: Skip covered by hero layer and unusable	High	Fixed	Skip Positioned painted before hero Stack layers	Skip moved last in Stack; Fast Delivery badge moved down so they don't overlap	PASS: Skip → Welcome; screenshot qa-tools/results/app_onb1_retest.png
ADEF-02	Login: dead language selector; phone field accepts letters and >10 digits	Medium	Fixed	Decorative widgets; no input formatters	Selector and fake +91 dropdown arrows removed; digitsOnly + 10-digit limit on Login & Sign Up; 6-9 start rule	PASS APP-08-03/04
ADEF-03	Leftover password UI in OTP-only app (Forgot Password link, reset flow, Sign Up password field that was discarded)	High	Fixed	Old email/password auth remnants	Removed Forgot Password entry and Sign Up password field; reset screens now unreachable (orphans)	Verified: no password field reachable
ADEF-04	Sign Up doesn't validate name/phone/email	Medium	Fixed	Only emptiness of phone checked	Name ≥2 chars, Indian mobile regex, email regex when provided	PASS APP-09-02/03
ADEF-05	Maintenance: dead buttons, hardcoded 'May 18, 2025' downtime	High	Fixed	Static mock UI	Removed fake card/buttons; Check Again re-reads /app-config and resumes app	PASS APP-02-01/03
ADEF-06	Home header never shows delivery address	Medium	Fixed	Addresses only loaded inside cart flow	Home loads addresses for logged-in users; header tappable; flexible with ellipsis	PASS APP-13-01
ADEF-10	Home header overflowed with longer address label (RIGHT OVERFLOWED stripe)	Medium	Fixed	Fixed-width Row without Flexible	Flexible + ellipsis	PASS: no overflow guest/auth
ADEF-11	White logo on white background invisible (Home header, Maintenance, Login placeholder)	Medium	Fixed	logo.png is white-only	New assets/images/logo_color.png (orange, transparent); login placeholder removed	PASS screenshots
ADEF-12	Address picker footer hardcoded 'Deliver to 226010', fake '24-48 hours', dead 'Change Pincode'	Medium	Fixed	Mock widget	DeliveryInfoCard shows selected city/pincode; dead button removed	PASS: 110001 → 999999 follows selection
ADEF-13	Home cart badge missing until Cart visited	Medium	Fixed	Home never loaded cart summary	Home init loads cart for logged-in users	PASS APP-13-03
ADEF-14	Voice search: tiny mic target on Home, RIGHT OVERFLOW on voice screen, invisible logo, unclear denied-permission state	Medium	Fixed	22sp tap target; fixed-width Row; white logo; generic status	48dp target; flexible waves + max-width status; colour logo; clear permission message	PASS APP-13-05
ADEF-15	Home banners ignore admin link (always open all products)	High	Fixed	Hardcoded navigation	openAppLink() router for /product, /offers, /categories, /products?category=, external URLs	PASS APP-13-07
ADEF-16	Home tiles misaligned; Fast Delivery tile hardcoded ■499; dead QR scanner icons on Home and listing search	Low	Fixed	Row centre alignment; hardcoded copy; decorative icons	Top alignment; threshold from /app-config; QR icons removed	PASS APP-13-08
ADEF-17	Home advertises coupon CHILL10 which does not exist	High	Fixed	Hardcoded promo copy	Offer card shows best real active coupon from /cart/coupons, falls back to Today's Deals	PASS APP-13-10

ID	Title	Severity	Status	Root cause	Fix	Re-test
ADEF-18	Fake ratings/review counts (e.g. 4.3 / 52,000 reviews with 0 real reviews) shown on app & website	High	Fixed (local DB)	seed.sql inserted fabricated rating/review_count	Seed zeroed; scripts/recalc-ratings.js recomputes from reviews (applied locally; production needs approval)	Local: 9 products corrected
ADEF-19	Category counts ≠ listing (Audio 8 vs 7); Low Stock products hidden from listings; OOS products not marked	High	Fixed	Listing default status='Active'; carousels Active-only; no OOS UI	Listing shows all non-inactive; carousels Active+Low Stock; OOS overlay + disabled purchase on card and details	PASS: Audio 8=8; OOS card/details screenshots
ADEF-20	'Best Seller' badge shown for any admin-featured product	Low	Fixed	Badge tied to is_featured	Renamed to 'Featured'	Code fixed
ADEF-22	Offline: logged-in users shown Welcome as if logged out; Home/Categories/Listing spin forever or say 'not found'	High	Fixed	getMe() treated network errors as invalid session; no error states	Session kept offline with cached profile (only 401/403 logs out); AppErrorState + Try again on Home, Categories, Listing	PASS APP-15-03; offline screenshots
ADEF-23	Listing: sort/brand filter only applied to loaded page; Filter button fake; in-page search dead; next page dropped search; 'Popular' sort fake	High	Fixed	Client-side filtering over paginated data	Server-side sort/brand/price/search on every page; price filter sheet; 'Newest' label; total count from server	PASS APP-16-02..05,10
ADEF-24	Product details: dead share button, dead AR button, decorative chevrons, false EMI/Bank/Exchange offers	High	Fixed	Placeholder UI	Share via share_plus; AR/chevrons removed; offers replaced by true payment/return info	PASS APP-17-04/06
ADEF-25	Reviews: fake 'Verified Buyer'/'Purchased on CHILLFI' badges on every review, fake 'Verified Purchases' summary (any user can review), dead star filters, fake sort, dead helpful buttons, dead Add to Cart/Buy Now, chip overflow	High	Fixed	Static mock UI; no purchase check	Backend auto-verifies reviews from delivered orders + verified count; badge only when is_verified; server star filter; honest sort label; working bottom actions	PASS APP-18-02..07
ADEF-26	Price breakdown didn't add up (listed discounted price then subtracted discount again); '1 Items'; '■1499.00'	Medium	Fixed	Label used subtotal instead of MRP total	First row = MRP total on Cart/Checkout/Payment; grammar; rounded ■ in message	PASS APP-19-06
ADEF-27	SECURITY: order API accepted expired / below-minimum / already-used coupons and silently ignored invalid ones; apply-coupon trusted client order_total; flat coupon could make total negative; inactive/OOS products orderable	Critical	Fixed	Coupon rules only enforced in apply-coupon; client total trusted	createOrder re-validates coupon (exists, expiry, min order, per-user use), clamps discount, rejects unavailable items; apply-coupon uses server cart value	PASS: API bypass attempts rejected
ADEF-28	Addresses accepted invalid phone/pincode (e.g. 12345 / 11000) in app and API; no validation feedback; delete without confirmation	High	Fixed	No field validation anywhere	Backend validateAddress (create/update, phone normalised); shared app validator + digit filters + inline error; delete confirmation	PASS APP-21-02/03/04
ADEF-29	PhonePe payment page never opened on Android 11+ (canLaunchUrl blocked by package visibility) while app claimed it did; Force-update 'Update' button same bug and pointed to wrong Play Store id (com.chillfi.app)	Critical	Fixed	Missing <queries>; canLaunchUrl gate; wrong package id	Manifest <queries> for https/http/upi/market/tel/mailto; launch directly with error dialog + retry; store link → com.ecom.chillfi; iOS guidance	PASS: payment page opens
ADEF-30	SECURITY: payment 'dev shortcuts' mark orders Paid without PhonePe when NODE_ENV≠production (incl. unauthenticated /payment/callback and /dev-success) — any non-prod or misconfigured server gives free orders	Critical	Fixed	NODE_ENV-based bypass	Single DEV_AUTOPAY flag requiring NODE_ENV=development AND PAYMENT_DEV_AUTOPAY=true; production verified NODE_ENV=production (safe)	Local verify now calls PhonePe; prod unaffected

ID	Title	Severity	Status	Root cause	Fix	Re-test
ADEF-31	Auto-cancel after failed payment initiation sends 'Order cancelled' push for an order the customer never saw	Low	Fixed	Cancellation notification fires for system cancels	No "Order cancelled" notification for unpaid online orders (never confirmed)	Code + API
ADEF-32	Bottom nav replaced the whole stack: Orders back arrow → blank screen; system Back on any tab exits app; Orders tab had no bottom nav	High	Fixed	pushReplacement for tabs	Home kept at base, tabs pushed on top; Orders asTab shows nav; maybePop	PASS APP-25-04/05
ADEF-33	Cancelling a PAID order (customer or admin) created no refund; admin cancel didn't restore stock; admin could reopen Cancelled/Delivered orders; refund/return offered for unpaid cancelled orders	Critical	Fixed	Missing money/stock handling on cancel	openAutoRefund on paid cancellations; admin cancel restores stock; terminal-state guard; refund rules in app + API	PASS: CF6508596040 → Refund Requested ■1178.82
ADEF-34	Cancel screen Support button dead; tracking title truncated	Low	Fixed	No handler	Support → Help & Support; title 'Track Order'	PASS
ADEF-35	Wishlist Clear All: no confirmation, list mutated while iterating	Medium	Fixed		Confirm dialog; iterate a copy	PASS
ADEF-36	Saved Addresses, Recently Viewed, Help & Support not reachable from profile	Medium	Fixed	Links only in unused widget file	Added to profile menu	PASS
ADEF-37	PRIVACY: after logout, guest still sees previous user's address & cart badge; guest profile shows fake 'ChillFi User'; Login back arrow → blank screen after logout	High	Fixed	Providers not cleared; no guest view; single-route stack	reset() on Cart/Wishlist providers at logout; guest sign-in view; Welcome under Login	PASS
ADEF-38	Invalid email ('bad-email') saved to profile (app + API); duplicate email gave generic error	High	Fixed	No validation	App + API validation; duplicate-email check	PASS
ADEF-39	Notification toggles had no effect (backend read 'orderUpdates', app saved per-stage keys)	High	Fixed	Key mismatch	Per-stage mapping in notifyUser	Unit check
ADEF-40	Help & Support: dead search box, 'My Tickets'/'View All' coming-soon controls, Account tile just closed screen, FAQs didn't answer	Medium	Fixed	Placeholders	Removed dead controls; FAQ answer sheets; correct destinations	Code
ADEF-41	About: fake version 2.5.0, invented stats (5M+ customers, 10M+ orders), Terms 'coming soon'; FORCE-UPDATE compared hardcoded 1.0.0 → could lock out up-to-date users; '24x7 support' vs real 9–9 hours (app + website)	Critical	Fixed	Hardcoded values/marketing placeholders	package_info_plus real version for About + force update; stats removed; Terms linked; support hours consistent	PASS: 'Version 1.0.2'
ADEF-42	Guest Orders/Wishlist tabs show empty lists instead of a login prompt	Low	Fixed		GuestPrompt with Login / Sign up on Orders and Wishlist	Emulator: guest_orders screenshot
ADEF-43	Help contact: tel link without +91 country code, dead 'Connect FB & Instagram'	Low	Fixed		tel:+91..., error dialog fallback, Connect removed	PASS

ID	Title	Severity	Status	Root cause	Fix	Re-test
ADEF-44	Discovery screens (Brands/Offers/Flash/New/Trending/Recommended): hardcoded fake category chips (Fashion/Beauty/Home) that didn't filter, fake countdown '02d 45h', fake bank/EMI/exchange offers, fake 'Notify me', dead 'View All'/'Shop Now', wrong nav tab highlighted, listing header count mismatch (22 vs 20)	High	Fixed	Mock template content; curated APIs lacked category_name	Chips from real categories + filtering; fakes removed; CTA wired; Home highlighted; category_name added to curated/home APIs; totals from server	PASS
ADEF-45	Cancel screen: dead Track/Contact buttons; refund card claimed '3–5 days' (policy 5–7) and showed for unpaid orders	Medium	Fixed		Buttons wired; card only when paid online; 5–7 days	Code
ADEF-46	App checkout accepted undeliverable pincodes; COD offered where unavailable	High	Fixed	No serviceability check	Provider checkServiceability; Proceed blocked; COD disabled + auto-switch to PhonePe	PASS: 999999 blocked, 110001 ok
ADEF-47	Home welcome card showed a fake 'CHILLFI Cash' balance (hardcoded 0) and 'earn rewards'	Medium	Fixed	Placeholder feature	Card now opens My Orders (signed in) or Sign in (guest)	Emulator verified
ADEF-48	Order/wishlist/tracking dates shown in UTC — orders placed 00:00–05:30 IST showed the previous day	Medium	Fixed	DateTime parsed without toLocal()	toLocal() in models + tracking	Orders list shows 25/9 for 25 Sep IST orders
ADEF-49	COD availability not refreshed on payment screen; store-wide COD off said 'Not available for this pincode'	Medium	Fixed	Checked only on address change; no reason	Re-check on payment open; backend cod_reason; wording	Toggle on/off verified live
ADEF-50	Maintenance 'Check Again' button below the fold on standard phones	Low	Fixed	Inside scroll view	Pinned above footer	Visible without scroll
ADEF-51	Cart API accepted negative/zero/fractional/huge quantities — negative line lowered order total and increased stock (pay ₹1,000 for a ₹5,000 item)	Critical	Fixed	No quantity validation in cart add/update or order pre-check	Integer ≥ 1 and $\leq$ stock in add/update; order refuses non-positive quantities	API probe: -3/0/1.5/abc/100000 rejected; local DB has no bad rows (prod check pending owner approval)
ADEF-52	Deactivated products still opened and could be added to cart from wishlist/old links; wishlist said 'In Stock'; product error blamed the connection; repeated identical search showed stale results	Medium	Fixed	GET /products/:id and cart/add ignored Inactive; client didn't distinguish 404	404 'no longer available', cart refuses Inactive, app/web unavailable states, search always refetches	Emulator + website verified
ADEF-53	Fonts (Poppins via google_fonts) are downloaded at runtime from fonts.gstatic.com — offline/first launch falls back to system font and logs unhandled exceptions	Medium	Open	No bundled font assets	Bundle Poppins TTFs (OFL) in assets/fonts + GoogleFonts.config.allowRuntimeFetching=false — needs owner OK to download font files	—
ADEF-54	Permission onboarding was fake: 'Allow Location Access' requested nothing (no location use) and 'Allow Notifications' only navigated; real notification prompt fired at cold start without context	Medium	Fixed	Buttons unwired; requestPermission in main()	Removed location step; notification permission requested on Allow + push token registered; no cold-start prompt	Fresh install: no prompt at launch
ADEF-55	Avatar upload failure showed admin setup instructions to customers	Low	Fixed	Shared upload error text	Customer-safe 503 message	curl

ID	Title	Severity	Status	Root cause	Fix	Re-test
ADEF-56	Order success 'View My Orders' pushed with a popped screen's context (possible crash); dead QuickActionsGrid with unwired 'Download Invoice'	Low	Fixed	Stale context; dead code	Captured navigator; removed dead widgets	Emulator verified
ADEF-57	Any failed token refresh (offline, rate limit, server error) signed the user out; parallel 401s refreshed twice with a rotating token and signed the user out	High	Fixed	Refresh failure treated as logout; no single-flight; backend returned 401 for DB errors	Single-flight refresh; sign out only on 400/401/403; transient → 'server busy'; backend 401 only for invalid tokens	Code + analyzer (expired-session path re-verified on emulator)

Blocked items / manual actions

ID	Blocked item	Why	Manual action required	Resume point
BLK-01	Real phone OTP login (Firebase)	OTP is delivered by SMS to a real phone; Claude cannot receive it. Blocks OTP success + post-login permission screens.	Firebase Console → Authentication → Sign-in method → Phone → 'Phone numbers for testing' → add e.g. +91 9000000001 with code 123456 → tell Claude 'Done'	APP-08-05, APP-10-02/04/05, APP-11-02/04, APP-12-*
BLK-02	PhonePe UAT verification locally	Local backend has placeholder PhonePe credentials, so UAT payments can't be completed/verified locally (the old dev shortcut hid this)	Add your PhonePe UAT (sandbox) Merchant ID + Salt Key in LOCAL Admin → Settings → API Keys → Payment (env: UAT). Do not use production keys.	Resume APP-22-03, APP-23-01/04, APP-24-04
